[RT-16] Custom Sort Deleting Unsaved Contact Data Created: 02/Aug/18 Updated: 03/Aug/18

Status:	In Progress
Project:	Resorts Tapped
Component/s:	None
Affects Version/s:	None
Fix Version/s:	None

Type:	Bug	Priority:	Medium
Reporter:	Tansey Sussex	Assignee:	Unassigned
Resolution:	Unresolved	Votes:	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original Estimate:	Not Specified		

Attachments:	post custom-sort button - info erased.JPG pre-custom sort data.JPG
Steps to Reproduce:	- Login as user or admin - Open a contact group and open a contact (See attached photo) - Edit the contact name and don't save contact update yet - Toggle the custom sort button to active - Observe that this erases the newly edited and unsaved name field data (See attached photo)
Expected Result:	Custom sort should only impact the ability to arrange the contact list.
Actual Result:	Custom sort is deleting unsaved form data when activated and there is not error message prompting that this will occur or reminding the user to save their work.

Description

- If a contact is open, and the custom sort toggle is used, it erases unsaved contact name field data.
- Refer to test case RT-5 Ready
- Refer to test plan RT-1 Open
